

Setting new standards through Yggdrasil

System Integration Manager Hugin A/B – FFA – Ole Magnus Holden

Setting new standards

~700 mmboe
resources (gross)*

NOKbn 115
capex (gross, 2022 real)

>65 000
Man-years

2027
first oil

Aker BP interest

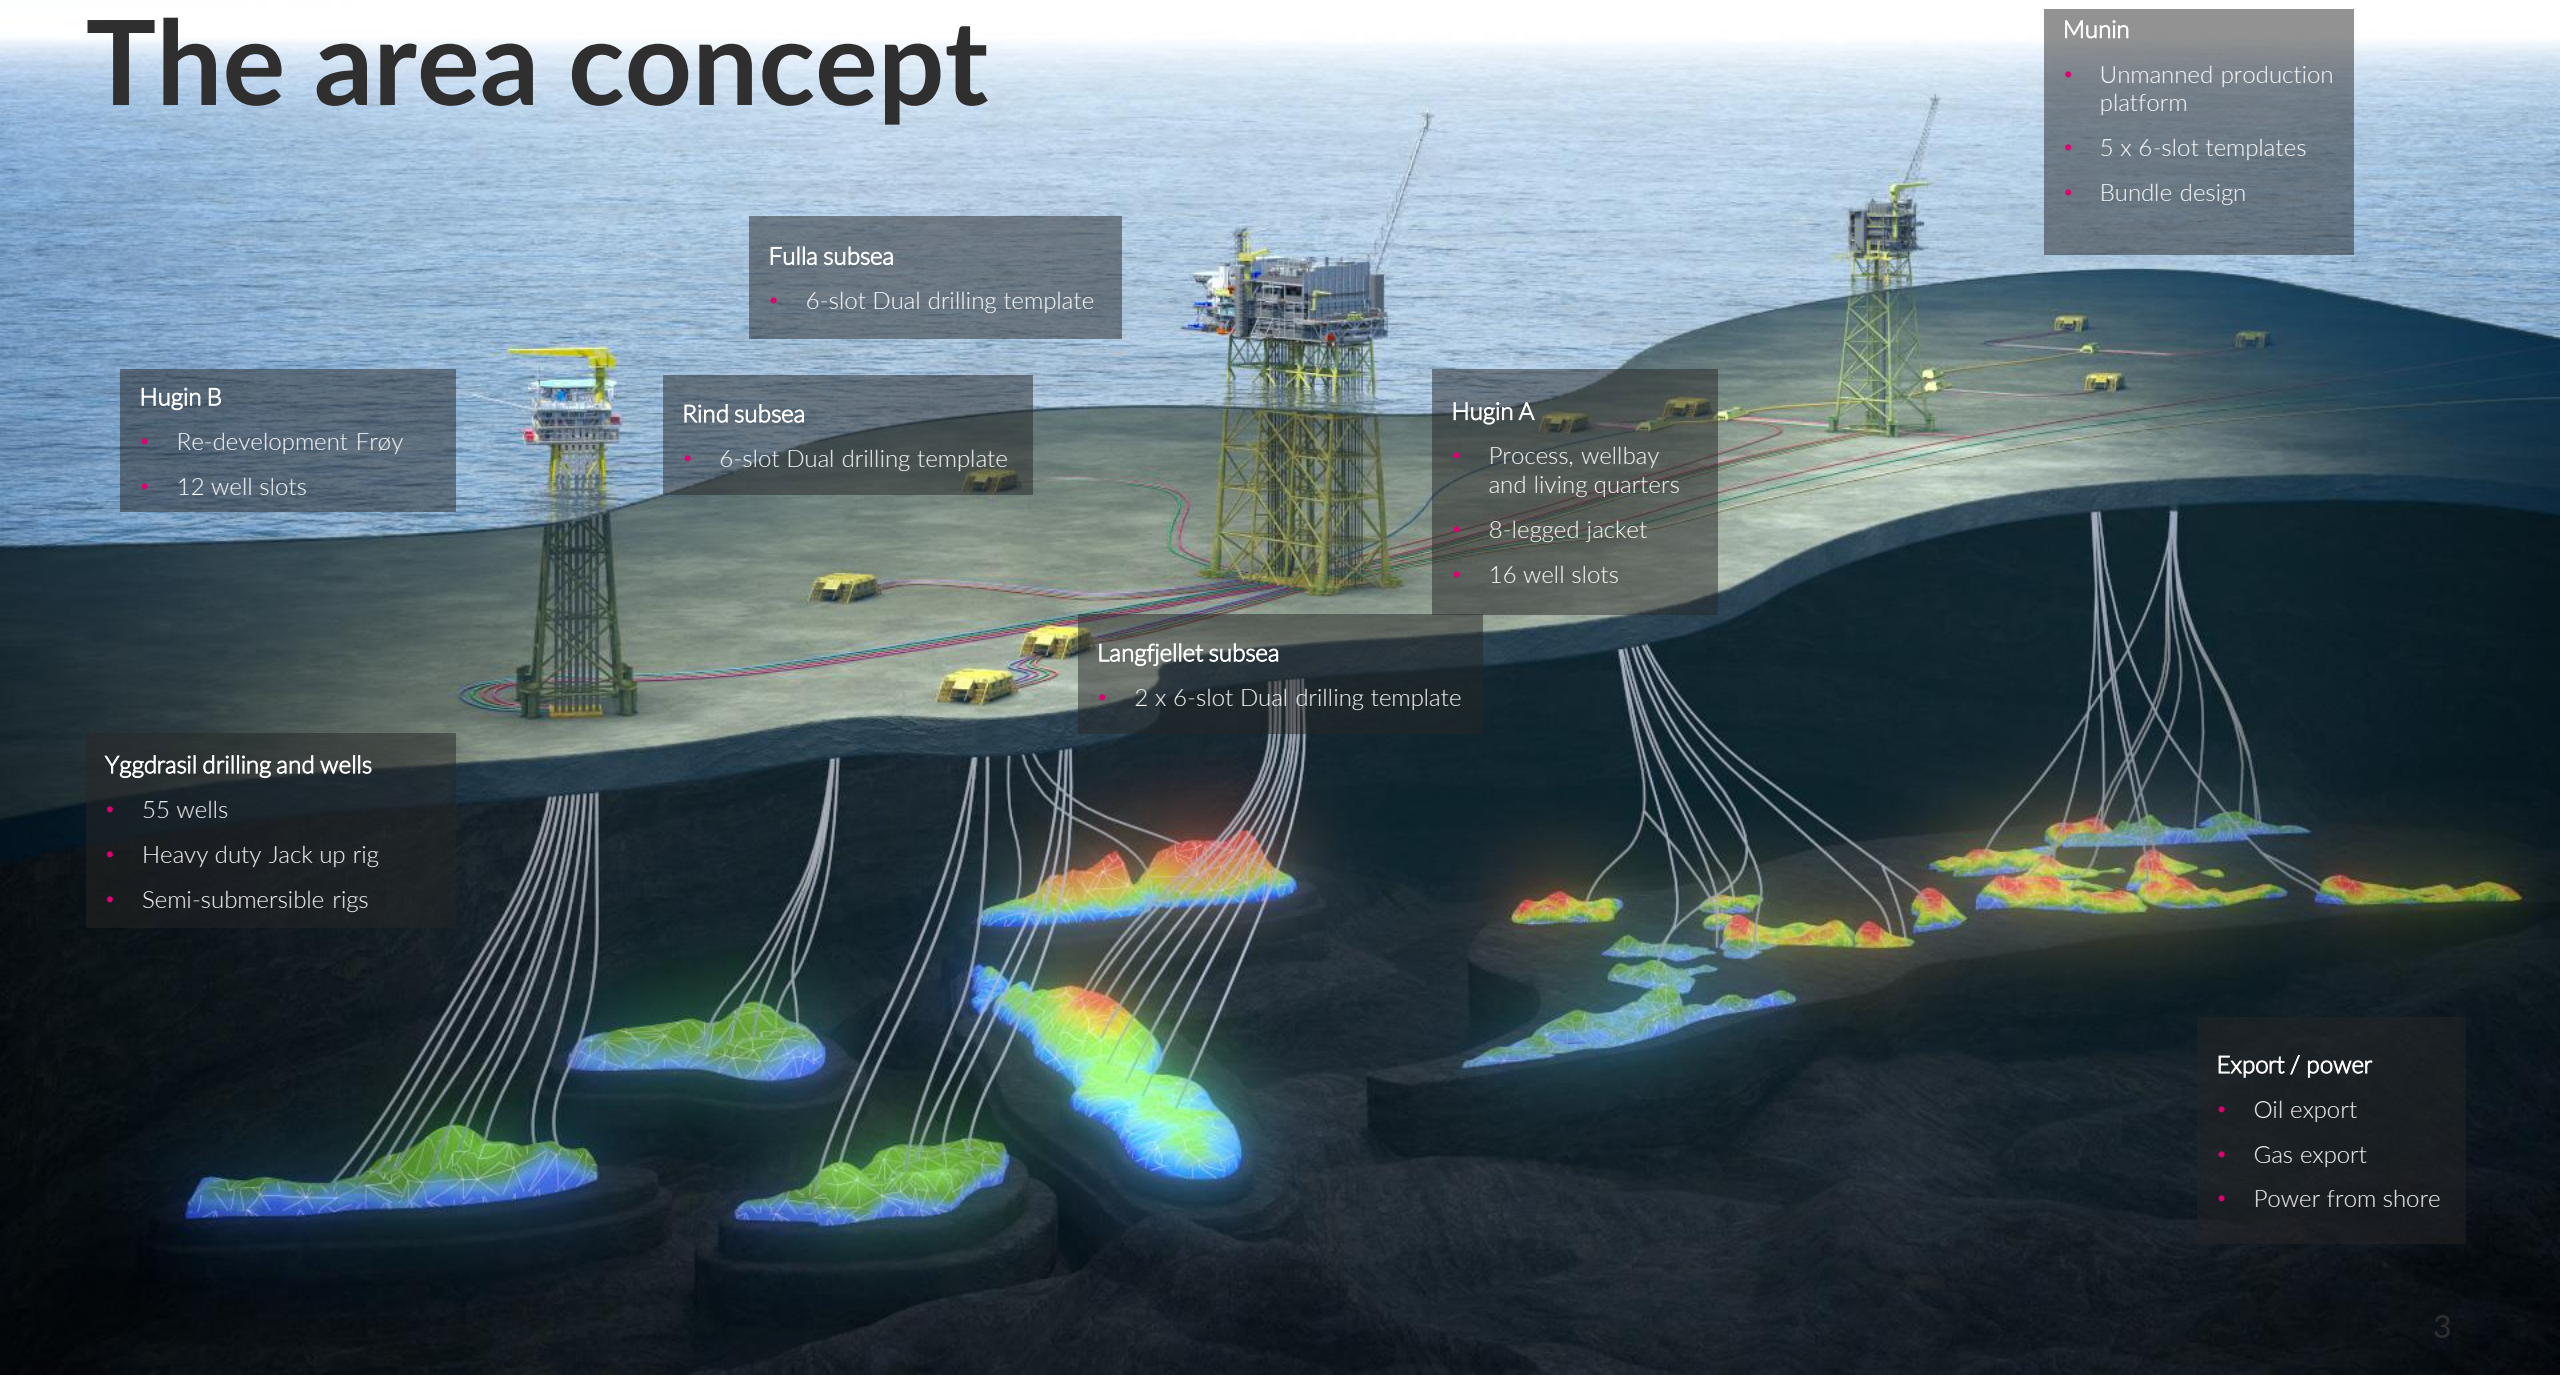

Hugin: 87.7%

Fulla: 47.7%

Munin: 50%

* Including 2023 discovery in Øst Frigg

The area concept

Hugin B

- Re-development Frøy
- 12 well slots

Fulla subsea

- 6-slot Dual drilling template

Rind subsea

- 6-slot Dual drilling template

Hugin A

- Process, wellbay and living quarters
- 8-legged jacket
- 16 well slots

Langfjellet subsea

- 2 x 6-slot Dual drilling template

Yggdrasil drilling and wells

- 55 wells
- Heavy duty Jack up rig
- Semi-submersible rigs

Munin

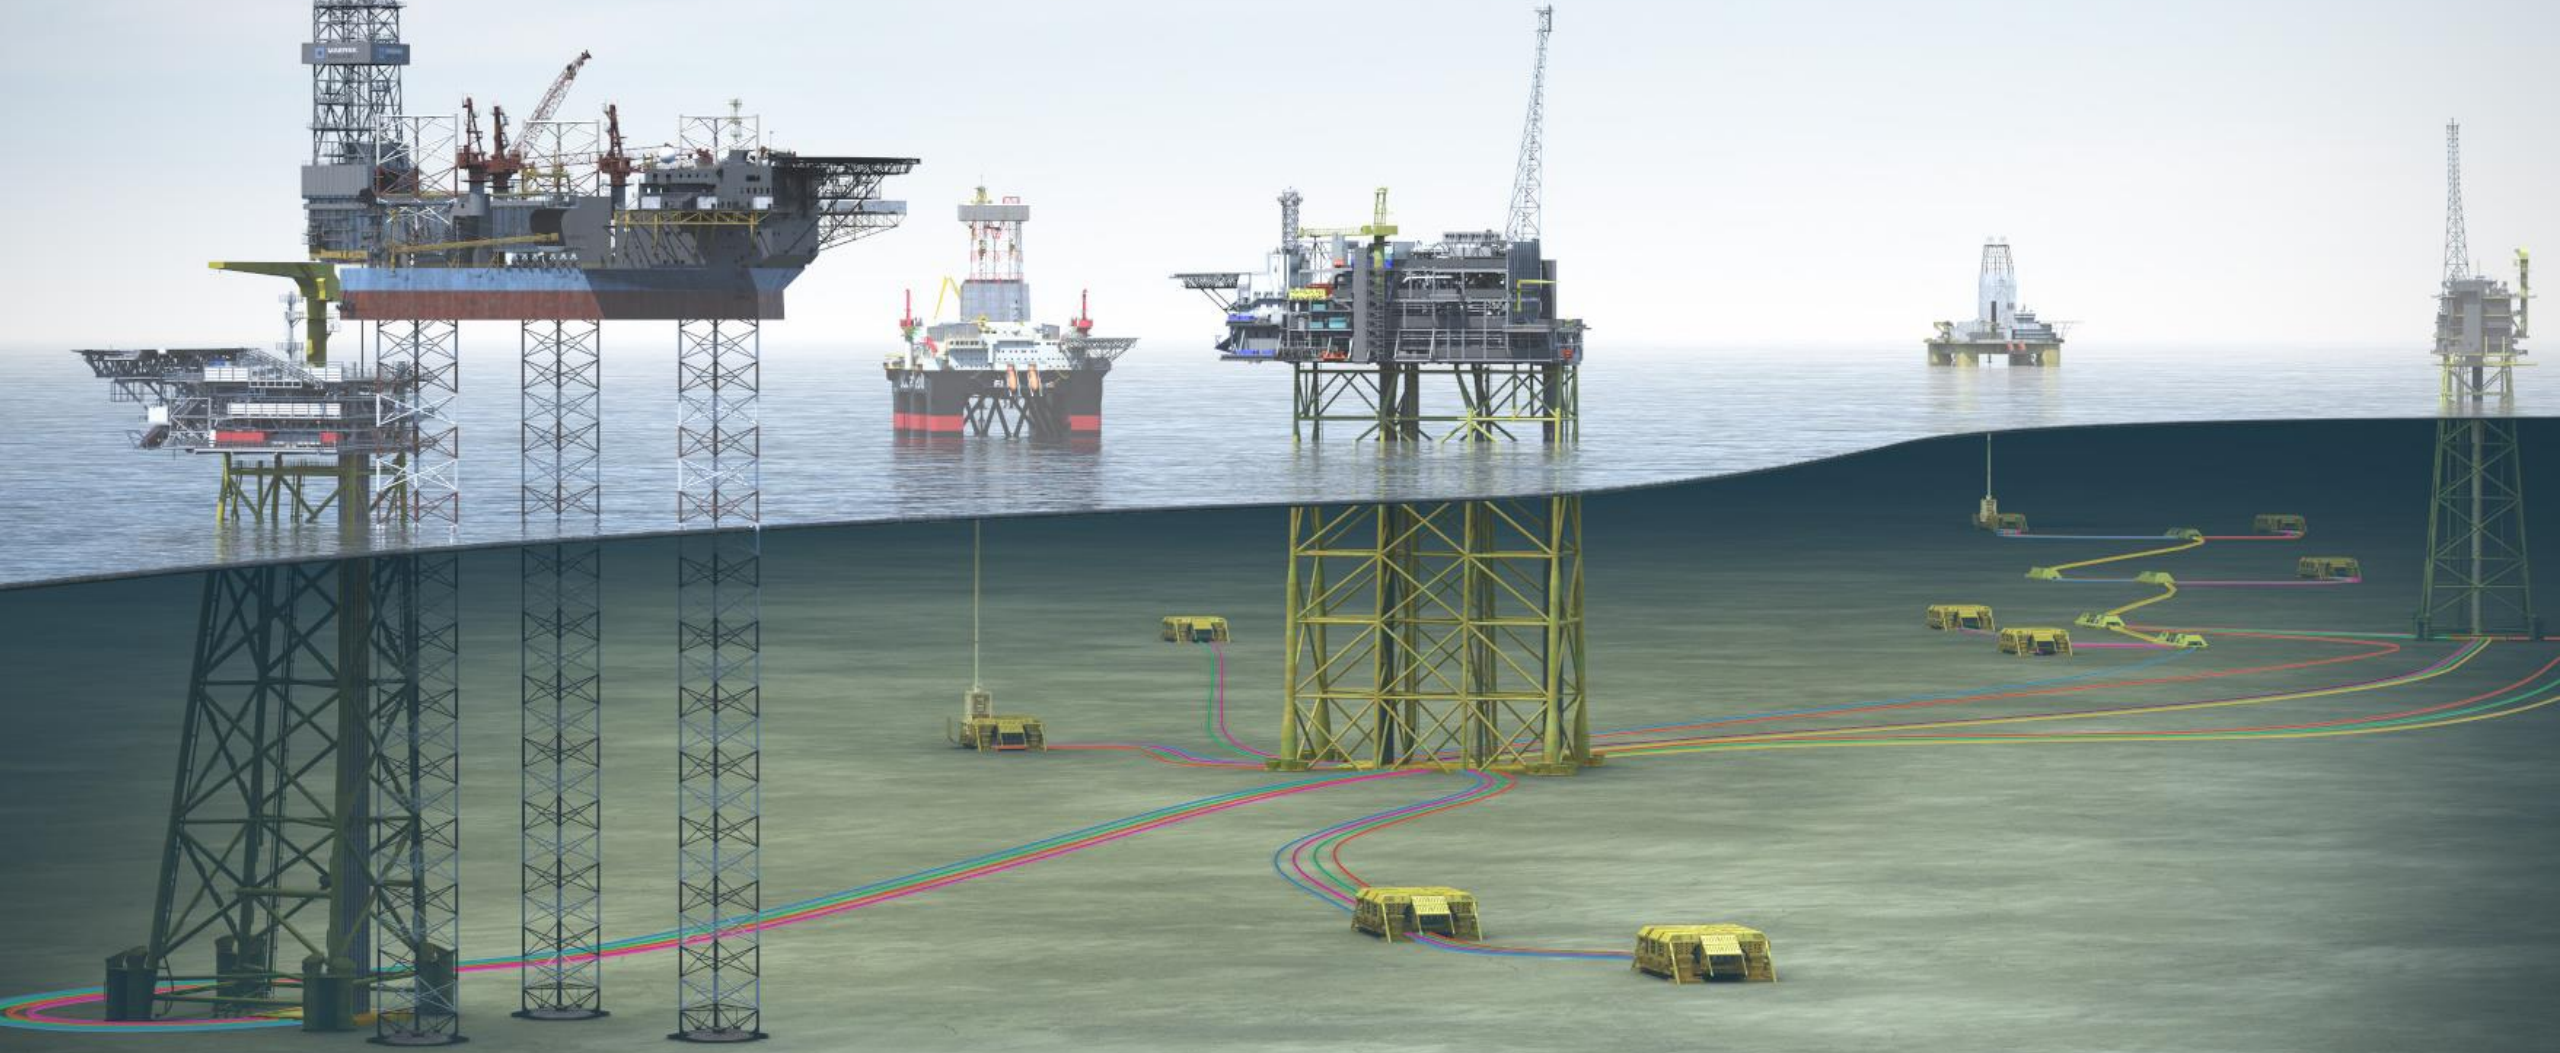

- Unmanned production platform
- 5 x 6-slot templates
- Bundle design

Export / power

- Oil export
- Gas export
- Power from shore

An alliance project

FIXED FACILITIES
ALLIANCE

SUBSEA ALLIANCE

JACK-UP ALLIANCE

SEMI ALLIANCE

Nøkkelprinsipper for suksess i prosjektgjennomføring

Partnerskap

- ✓ Kompetanse og læring
- ✓ Kontinuitet
- ✓ Felles mål og insentiver

Standardisering

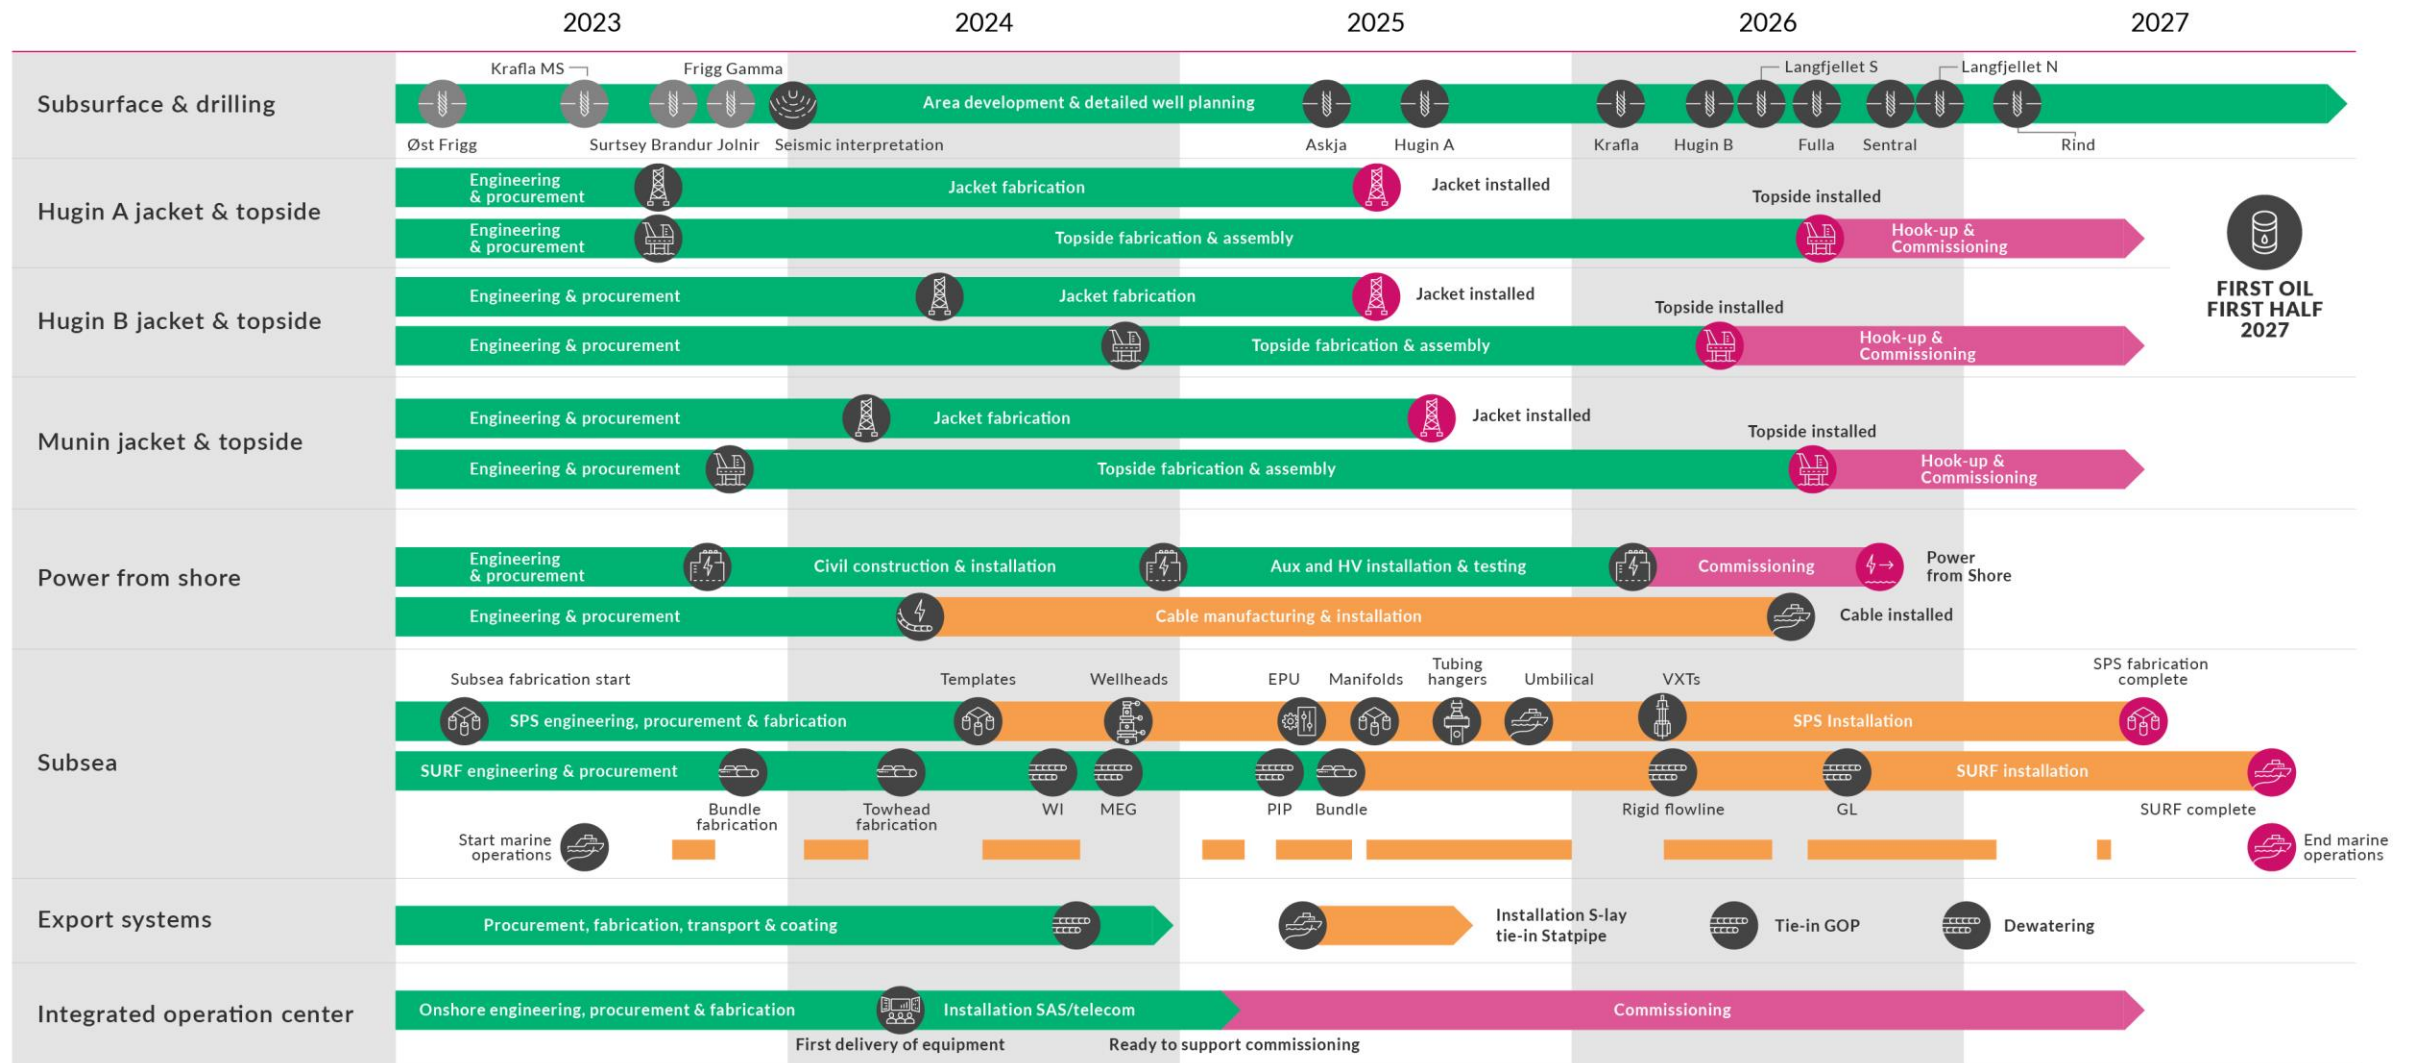

- ✓ Brønndesign og utstyr
- ✓ Plattformer og havbunnsutstyr
- ✓ Legge til rette for effektiv drift

“Frontloading”

- ✓ Tidlig planlegging og modning
- ✓ Involvering av leverandører
- ✓ Sikret kapasitet på verft og rigger
